

A SECURE DOOR IS THE FIRST LINE OF DEFENSE

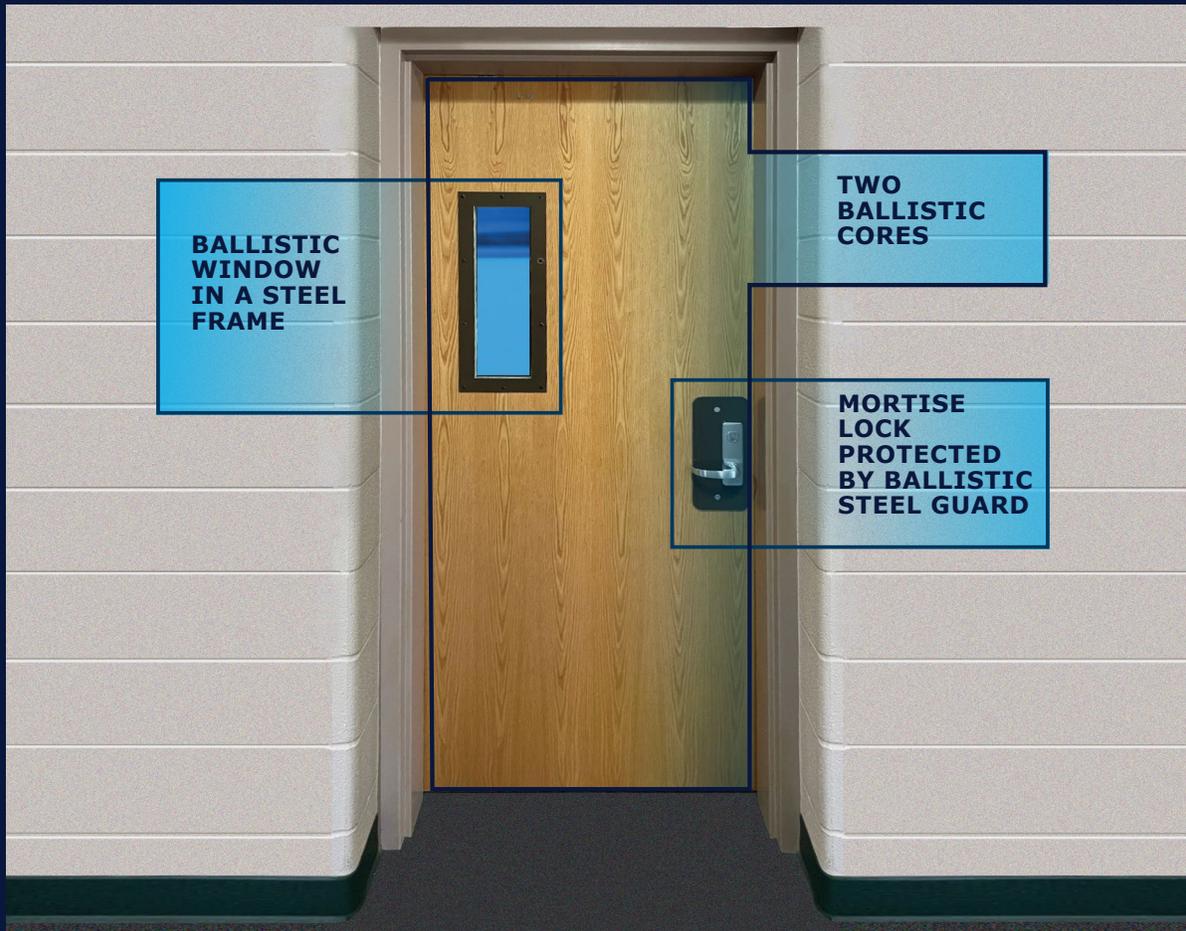

NETTALON is changing the way America builds, retrofits and operates safer schools. Its Integrated School Defense System (ISDS) offers an unprecedented combination of products, technology, software, strategies and tactics which dramatically improve school safety against active shooters or other terrorist attacks.

Currently, in the case of an attack, students and staff have no safe spaces to shelter in place and the **classroom doors are vulnerable to breach by weapon fire**. NETTALON's **Hybrid Ballistic Door** is the most practical, cost effective, secure door in the marketplace designed to prevent a breach into the room.

NETTALON'S HYBRID BALLISTIC DOOR
A FIRST LINE OF DEFENSE

NETTALON'S HYBRID BALLISTIC DOOR FEATURES TWO BALLISTIC CORES

NIJ Level III / NIJ Level IIIA ballistic rating

- **Lowest-weight, practical ballistic door in the market**
- **Door locks when closed**
- **Possible ricochets hazardous to the attacker**
- **Wide selection of wood veneer and finishes available**
- **20-minute fire rating for door and ballistic window**
- **Ballistic vision window - NIJ Level IIIA**
- **Ballistic steel lock guard - NIJ Level III**

SECURE SCHOOL DOORS COULD HAVE SAVED LIVES

1999 / Columbine High School, CO

Total Casualties: 15 Killed / 24 Wounded

Library doors not secure : 12 Killed / 12 Wounded

3 classrooms, doors not secure : 24 Killed / 1 Wounded

2022 / Robb Elementary School, TX

Total Casualties: 21 Killed / 16 Wounded

Classrooms doors not secure : 21 Killed / 16 Wounded

“Every child, teacher and school staff member deserves to be safe in their educational setting. No teacher should have to stand in front of their children and be forced to plead for their life and the lives of their students. My goal is to ensure that every school, every child and every teacher is equally protected with the highest level of safety possible in the event of an active shooter attack.”
